BUDGET

BAKO

FY 2020-21

Bakersfield People's Budget- 2020-21

The People's Budget Bako is a grassroots coalition that is several years in the making. Throughout the city of Bakersfield Black and Brown organizers have been fighting for police accountability and reform dating back to the early 2000's, and building upon the work of our elders .

We quickly learned that police reform is useless, because you can't reform an institution that has no accountability. Every year the cities across the country (including Bakersfield) increase the amount of money given to the police. That gives them more power to harass, arrest and murder Black people in the streets like dogs.

Led by Black organizers with the needs of Black people in the forefront we are challenging the way things are done, and reimagining what our world could look like. This is a coalition created for the people by the people, and we will win.

Bakersfield People's Budget- 2020-21

Divest

We the residents of Bakersfield demand that Bakersfield City Council vote to divest funds from The Bakersfield Police Department to end their history of surveilling, arresting, caging, criminalizing, abusing, and murdering Bakersfield residents. As stated in the Guardian 5 part series of article/videos in 2015 that identified BPD as being the deadliest police force in the nation, "Police in Bakersfield have caused insurmountable amounts of trauma to communities of color through the Bakersfield area."

We need look no further than the BPD's murder of Christopher Okamoto, Dave Turner, or David Sal Silva to recognize the depth of that trauma. Silva in which he was illegally "hog-tied" and beat to death in front of his house. Okamoto was shot through a screen door. Francisco Serna, a 73 year old grandfather with dementia was shot 7 times with a crucifix in his pocket.

We the People of Bakersfield have watched in horror as BPD has failed to take accountability, and have watched our elected official discredit, censor, or flat out ignore the sheer brutality of their police force. Not after the countless murders, Not after the countless media interviews and articles, from local, state, national and even international new outlets. Not even after the CA Dept of Justice launched an investigation into the BPD. Never have the BPD (or the KCSO) taken responsibility and worked community members to implement real policy change, accountability or transparency..

Our years of fighting got us Body Cams, which police have used to further criminalize and surveill us. Minimal milquetoast half-measure policy reforms have been accepted after countless years of terrorizing our communities.

We have tried innumerable times to implement Community Oversight and Accountability of Police. We've pressured Law Enforcement to partner with community orgs to work to build trust with the community. We have wasted years on so many Townhall's, and community conversations, full of blame-shifting and empty promises. Time and time again, Police Chief after Police Chief have spit in our faces, killed our brothers and sisters, and then gone to hide behind their "Thin Blue Line" and Shields of Silence, protected by our cities' elected leaders, and their lack of action. For too long "City Leadership" has ignored our cries, our begging, our blood, our sweat and our tears, and wash their hands of it.

We have lost hope that 1) The Bakersfield Police Dept wants to make a good faith effort to reform and be held accountable by the communities they serve. 2) That the Bakersfield Police Dept. has the capacity or desire to even change.

That is why, We the Residents of Bakersfield, Demand that you Defund the Bakersfield Police Department.

Bakersfield People's Budget- 2020-21

What brought us here

The City of Bakersfield has neglected and forgotten about many low-income, Black and people of color neighborhoods for many generations. This in return has been reflected in the lack of investment in Black communities and communities of color within the city of Bakersfield. Black city residents and other people of color have disproportionate barriers to resources, services, and amenities which are essential to live a healthy lifestyle.

The city has historically failed to address the needs of the Black neighborhoods and other communities of colors while investing in other projects and proposals that have not genuinely and actively been vetted with local residents. City residents want to be part of decision making processes and participate in shaping the future of the City of Bakersfield in which they live their lives, however time after time Black residents have not been meaningfully included in shaping decisions and decision-making processes.

The continuous disinvestment in resources, services, programs and amenities in low income Black and communities of color has greatly affected the well being and health of these neighborhoods. Programs that once existed no longer do, while the need persists and is amplified by other health impacts that affect their ability to live healthy lives.

We are outraged

We are tired and outraged at the lack of visibility and attention that our communities get year round, while year after year local law enforcement is prioritized and their budget continues to grow. Law enforcement is not, and has never been the best way to address the challenges that communities face. To say that residents of the City of Bakersfield want more law enforcement is a not an accurate representation as Measure N passed by a mere 97 votes. The city has yet to acknowledge that there are other just ways to be able to lead a city in a fruitful, prosperous and healthy way.

The police killing of George Floyd and the subsequent protests led by Black Lives Matter has called attention to the disproportionate levels of local resources allocated to police departments all over the country, and Bakersfield is no exception. This year's proposed budget allocates over 40% in unrestricted funds to the Bakersfield Police Department, and our historical analysis shows that over the last 14 years, the city has overinvested its unrestricted funds in policing compared to parks and development services. The people of Bakersfield will not stand for a budget that allocates \$325,000 a day on surveilling, arresting, convicting, and caging Bakersfield residents and only \$188,000 a day meeting the critical housing, open space, economic, and community needs of our residents.

Our Demands

Residents of the City of Bakersfield have made their voices heard and demand to see substantial and sustainable change in the way that the city allocates funds within their annual city budget to create investments in long-term violence prevention and community safety that does not rely on law enforcement. To ensure this, we demand that the city reallocate **100%/\$ 119 mil** from the Bakersfield Police Department and invest in community priorities that have been identified in our People's Budget. The top **6** areas identified as important for

Bakersfield People's Budget- 2020-21

The Bakersfield People's Budget was created through a community-led process in June 2020. Bakersfield residents were asked to envision how they would spend \$119 million (currently proposed for the Bakersfield Police Department) to improve the safety and well-being of their communities. The responses were voted on and prioritized by over 200 Bakersfield residents, with 20% of respondents from 93306 and 15% from 93311.

1

Racial Equity Policies and Plans

- Create systems of accountability to ensure the city passes a budget that reflects the needs of Black and other communities of color through annual, authentic and meaningful engagement. This participatory budget must be adhered to by city officials and cannot be undone.
- Ensure community accountability over the city's budgets and where funds are allocated including clearer policy processes and documentation.
- Invest in community self-determination and anti-displacement processes by prioritizing development plans created and led by long-term residents of that community.
- Encourage racial equity-based decision-making and investments by addressing policies that prevent using race as a factor in decision-making.

2

Education and Youth Development Services

- Provide social and emotional support & mental health resources for youth of color.
- Ensure at least one counselor, social worker, or psychologist per school.
- Hire more Black teachers and Black education integrated into the academic system.
- Invest in child care services for communities of color.
- Provide trauma-informed training for teachers.

3

Public Health (including Mental Health)

- Invest in community-centered, culturally responsive, adequate mental health services for Black adults, young people, and especially those that are victims of police brutality.
- Offer Bakersfield residents high-quality public health care.
- Offer free mental health services for Black communities and other communities of color to heal from trauma that stems from systemic anti-Black racism.
- Provide substance abuse treatment programs.

Bakersfield People's Budget- 2020-21

4

Housing

- Invest and commit to the creation of affordable housing throughout the City of Bakersfield Black and communities of color.
- Continue the efforts in establishing rental and utility assistance programs year round.
- Invest in an analysis to address the residential segregation between Black and white Americans
- Decriminalize homelessness.

5

Building Black Economic Equity

- Create safe spaces where the voices of Black and communities of color are centered, respected, and included in decision making processes.
 - Black and communities of color are part of hiring committees, boards, task-forces, special advisory committees and have prominent decision making positions.
- Ensure Black and communities of color have access to job opportunities that include adequate healthcare and economic mobility.
 - Youth Leadership Pipeline: Create city internship positions for Black students and students of color.
- Create opportunities for first-time home-buyers beyond what is currently available.
- Grant program for Black, Indigenous, People of Color community based cultural, employment programs and organizations.
- Provide a universal basic income as a form of reparations for Black people.
- More investments in Black and brown businesses.

6

Violence Prevention

- Crisis mobile evaluation teams (MET) that are staffed by trained therapists and mental health professionals, not police.
- Invest in cultural sensitivity trainings for police.
- Decriminalize substance abuse.
